Crystals and Crystal Growing

Alan & Singer, Phylis Holden

Crystals and Crystal Growing Alan & Singer, Phylis Holden

Big book of 320 pages. The beauty of large crystals is arresting. the flatness of their faces, the sharpness of their angles, and the purity of their colors will give you deep satisfaction. This book suggests many experiments which will help you to develop laboratory skill, if you want to. It also describes some of the ways you can visualize the results of these experiments, and place them in a satisfactory framework of understanding. To help you to sharpen your intellectual tools, it offers problems, in visualization and thought, which you can answer with the material presented. We urge you to grow the crystals and build the simple models and apparatus you will read about; you will find them of great help in your understanding of the subject matter. Chapter one 32 pages: Solids and Crystals, Chapter two 24 pages: Solutions, Chapter three 10 pages 3 Solubility Diagrams, Chapter four 15 pages Two Methods for Growing Crystals, Chapter 5 12 pages twelve recipes for Grwoig Crystals, Chapt 6-13: Building blocks for Crystals, The Symmetry of crystals, The Arrangements of Atoms in Crystals, Cleaving and Gliding Crystals, Mel5ting and transforming Crystals, The Piezoelectric Effect, Some Optical Experiments, Classifying Crystals, Appendices, Index.

From reader reviews:

Celia Robertson:

Do you have favorite book? If you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each guide has different aim or perhaps goal; it means that reserve has different type. Some people truly feel enjoy to spend their time and energy to read a book. They can be reading whatever they have because their hobby will be reading a book. Why not the person who don't like reading through a book? Sometime, individual feel need book if they found difficult problem or maybe exercise. Well, probably you'll have this Crystals and Crystal Growing.

James Horowitz:

The book Crystals and Crystal Growing gives you the sense of being enjoy for your spare time. You can use to make your capable more increase. Book can being your best friend when you getting anxiety or having big problem with your subject. If you can make studying a book Crystals and Crystal Growing being your habit, you can get more advantages, like add your own personal capable, increase your knowledge about a few or all subjects. You are able to know everything if you like open up and read a book Crystals and Crystal Growing. Kinds of book are several. It means that, science publication or encyclopedia or some others. So , how do you think about this book?

Nathan Osborne:

Do you really one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Attempt to pick one book that you just dont know the inside because don't evaluate book by its include may doesn't work the following is difficult job because you are frightened that the inside maybe not as fantastic as in the outside search likes. Maybe you answer can be Crystals and Crystal Growing why because the excellent cover that make you consider about the content will not disappoint a person. The inside or content is usually fantastic as the outside or maybe cover. Your reading 6th sense will directly make suggestions to pick up this book.

Daniel Nelson:

As a university student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just small students that has reading's heart or real their passion. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that studying is not important, boring and also can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Crystals and Crystal Growing can make you experience more interested to read.
