## Enduring Conquests: Rethinking the Archaeology of Resistance to Spanish Colonialism in the Americas (School for Advanced Research Advanced Seminar Series)

*Enduring Conquests* presents new interpretations of Native American experiences under Spanish colonialism and challenges the reader to reexamine long-standing assumptions about the Spanish conquests of the Americas. The contributors to this volume reject the grand narrative that views this era as a clash of civilizations--a narrative produced centuries after the fact--to construct more comprehensive and complex social histories of Native American life after 1492 by employing the perspective of archaeology and focusing explicitly on the native side of the colonial equation.
