Applying Anatomy & Physiology Concepts through Active Learning

Developed as the companion lab manual to Amerman's *Human Anatomy & Physiology*, Catharine Whiting's lab manual takes an active learning approach that uses a rich variety of hands-on activities, along with guided questions, to engage students and help them apply concepts learned in lecture to lab.

The active learning approach to Whiting's *Human Anatomy & Physiology Laboratory Manual: Making Connections* includes unique hands-on activities that use different learning modes including labeling, sketching, touching, dissecting, observing, conducting experiments, interacting with groups, and making predictions. Whiting also includes pre-lab assignments to help students better prepare for lab; and post-lab assignments to solidify learning and challenge students to see interrelationships of concepts across topics.

Also available with MasteringA&P®

This title is also available with MasteringA&P -- an online homework, tutorial, and assessment system proven to help students learn. It helps instructors maximize lab time with customizable, easy-to-assign, automatically graded assessments that motivate students to learn outside of class and to arrive prepared for lab. The powerful gradebook provides unique insight into student and class performance.
