This second volume was published in 1896.

### PREFACE TO SECOND EDITION

The kind reception given to " Prospecting for Gold and Silver" by the mining and prospecting fraternity, as well as the general public, has made necessary a second edition. In this we have added to the text sketches of some of the principal prospecting regions of North America, which, besides illustrating the principles presented in the work, will, with their maps and illustrations, prove useful guides to prospectors who may venture into those districts. Having extended the scope of the work, we have accordingly given it a more general title, namely : " Prospecting for Gold and Silver in North America".

Respectfully,

ARTHUR LAKES
