Natural Resource Development and Social Impact in the North (American University Studies, Ser. XI: Anthropology and Socio)

Natural Resource Development and Social Impact in the North (American University Studies, Ser. XI: Anthropology and Socio)

The book directs attention to issues of impact assessment related to the development of natural resources. The topics range from case studies to problems associated with practice. Biophysical, social and economic impacts brought on by various developments are identified and discussed. The contributors to this volume represent a number of individuals and organizations throughout North America. Government officials, academics and individuals from industry carrying out natural resource developments and social impact assessments are represented.
