Market: Physicists, interested lay readers, and historians of science. This survey of the history of electrodynamics provides insight into the revolutionary advances made in physics during 19th and the first quarter of the 20th centuries. The first volume covers the theories of classical physics from the time of Plato to the end of the 19th century. The second volume examines the origins of the discoveries that paved the way for modern physics with the emphasis on special relativity, quantum theories, general relativity, matrix mechanics, and wave mechanics.

**From reader reviews:**

**John Krumm:**

The publication untitled A History of the Theories of Aether and Electricity: Part I, the Classical Theories & Part II, the Modern Theories (History of Modern Physics, 1800-1950) TWO VOLUMES is the book that recommended to you you just read. You can see the quality of the book content that will be shown to you. The language that author use to explained their ideas are easily to understand. The copy writer was did a lot of research when write the book, to ensure the information that they share to your account is absolutely accurate. You also might get the e-book of A History of the Theories of Aether and Electricity: Part I, the Classical Theories & Part II, the Modern Theories (History of Modern Physics, 1800-1950) TWO VOLUMES from the publisher to make you more enjoy free time.

**Adam Rucks:**

Can you one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Attempt to pick one book that you never know the inside because don't evaluate book by its handle may doesn't work this is difficult job because you are scared that the inside maybe not since fantastic as in the outside seem likes. Maybe you answer may be A History of the Theories of Aether and Electricity: Part I, the Classical Theories & Part II, the Modern Theories (History of Modern Physics, 1800-1950) TWO VOLUMES why because the wonderful cover that make you consider in regards to the content will not disappoint you actually. The inside or content is actually fantastic as the outside as well as cover. Your reading sixth sense will directly direct you to pick up this book.

**Barbara Corbin:**
