"Be a bear," they said. "It'll be fun," they said. "No stress. No worries. It'll make it all better," they said.

Chelle was looking forward to hibernating through the winter in the Sierra but something was keeping her from sleeping.

Each night she felt herself pulled out of the mountains and closer to the nearby mountain community. She was supposed to be asleep-- missing the holidays and the tourists, the people and the noise.

Instead, she was missing it all, missing it something fierce.

Night after night she felt compelled closer to town, finding herself in the same alley, behind the same cabin. Growing bolder. Arriving earlier, staying later.

It was only a matter of time before someone reported a problem bear in town.

Chelle had gotten the full scoop on fated mates when she'd been Turned, but she hadn't taken it seriously. After all, humans think they have soul mates too, right?

So when she finds herself drawn to the handsome black bear shifter, she has to figure out how to break the news to her mate that she's not interested.

Or is she?

Bearly Sleeping is a stand alone novella in the Sierra Moon Shifters series. Although you can read it alone, it follows a time line and feature character cross-overs that make it more enjoyable if read with the other titles in the series.
