Cash Flow Reporting (RLE Accounting): A Recent History of an Accounting Practice (Routledge Library Editions: Accounting)

This collection explores Kuhn's 1970 perception of a scientific revolution in the form of a cyclical sequence of anomaly recognition; insecurity, alternative ideas, schools of thought and dominating practices. Cash flow reporting has become a dominant accounting practice which emerged from a developmental process of Kuhnian form. The text is constructed around the various stages identified by Kuhn and selected readings are categorised accordingly.
