Histories of medieval Europe have typically ignored southern Italy, looking south only in the Norman period. Yet Southern Italy in the ninth and tenth centuries was a complex and vibrant world that deserves to be better understood. In *Before the Normans*, Barbara M. Kreutz writes the first modern study in English of the land, political structures, and cultures of southern Italy in the two centuries before the Norman conquests. This was a pan-Mediterranean society, where the Roman past and Lombard-Germanic culture met Byzantine and Islamic civilization, creating a rich and unusual mix.
