The Silver Age Nicholson Gunn

The Silver Age is a new novel by obscure author and bon vivant Nicholson Gunn. Inspired by F. Scott Fitzgerald's great short story "Winter Dreams" (his warm-up for *The Great Gatsby*), it is 2013's other, somewhat lower budget, Fitzgerald remake.

Unfolding in a vibrant but prosaic Canadian city in the early years of the 2000's, the novel tells the story of Stephan Stern, a gifted young photographer who catches the eye of Jenny Wynne, a local journalist who writes a popular lifestyle column – a frothy confection of cultural analysis, gossip, and material cribbed from *Sex and the City*.

They begin a romance, but while Stephan falls head over heels, fantasizing marriage and a new life as a New York media power couple, Jenny treats the relationship as a casual fling. Life is long and youth's possibilities endless, she tells him.

But already their world is shifting: Stephan's beloved silver-nitrate film process is giving way to cheap, effortless digital photography, and the print media are struggling to survive in an increasingly savage marketplace. As the story progresses, personal and societal crises gather like dark clouds at the edge of a sunny vacation photo.

Set against a backdrop of societal change and upheaval – the destructive excesses of the Noughties, the revolutionary rise of digital media – *The Silver Age* is a romantic tale of ambition, hope, the passage of time and the drug of desire.
