You're about to discover how to...

Put money into your pockets today by living a frugal lifestyle. Many people want to make more money right now and don't know how. I believe if you follow some of these simple proven frugal methods you'll save money right away. Some people think that being frugal is being cheap, that is the furthest thing from the truth. Being frugal to me means buying things of value for the best price. Things of better value tend to have better warranties and last longer. People who buy cheap spend more money in the long run, because the products or service are poor and low quality. Frugal means getting the most out of your dollar and to respect money. Living frugal means not to be wasteful. Most wealthy people did not become wealthy by foolishly spending their money and being wasteful, but by living a frugal lifestyle in most cases. In order to receive more in life you must first be able to get the most out of what you currently have. I heard it said that you will not be given more than you can handle.
