Remarks on the Foundation of Mathematics [Bemerkungen Über Die Grundlagen Der Mathematik]

Ludwig Wittgenstein

2014 Reprint of 1956 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Published in English and German with each text presented on opposing pages. "Remarks on the Foundations of Mathematics" are Wittgenstein's notes on the philosophy of mathematics. It has been translated from German to English by G.E.M. Anscombe, edited by G.H. von Wright and Rush Rhees, and published first in 1956. The text has been produced from passages in various sources by selection and editing. The notes have been written during the years 1937-1944 and a few passages are incorporated in the "Philosophical Investigations" which were composed later. Wittgenstein's philosophy of mathematics is exposed chiefly by simple examples on which further skeptical comments are made. The text offers an extended analysis of the concept of mathematical proof and an exploration of Wittgenstein's contention that philosophical considerations introduce false problems in mathematics. Wittgenstein in the "Remarks" adopts an attitude of doubt in opposition to much orthodoxy in the philosophy of mathematics. Wittgenstein's influence has been felt in nearly every field of the humanities and the social sciences, though many of his views remain controversial. Wittgenstein's work remains, undeniably, now, that of one of those few philosophers who will be read by all future generations. It is by far the richest twentieth-century source of philosophical ideas, which it will take us more decades yet properly to apprehend and to absorb; despite the difficulty with which his work presents the reader, there is nothing that is likely to be more rewarding. The philosophy of mathematics was one of his earliest and most persistent preoccupations.... The present edition is a selection from seven distinct pieces of writing by Wittgenstein prior to his death in 1951.

From reader reviews:

Shirley Raine:

Typically the book Remarks on the Foundation of Mathematics [Bemerkungen Uber Die Grundlagen Der Mathematik] will bring you to the new experience of reading any book. The author style to elucidate the idea is very unique. When you try to find new book to study, this book very appropriate to you. The book Remarks on the Foundation of Mathematics [Bemerkungen Uber Die Grundlagen Der Mathematik] is much recommended to you to learn. You can also get the e-book in the official web site, so you can more easily to read the book.

Richard Williams:

Reading a guide tends to be new life style in this era globalization. With studying you can get a lot of information which will give you benefit in your life. Having book everyone in this world can share their idea. Guides can also inspire a lot of people. Lots of author can inspire all their reader with their story or maybe their experience. Not only the storyplot that share in the ebooks. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors these days always try to improve their ability in writing, they also doing some analysis before they write to their book. One of them is this Remarks on the Foundation of Mathematics [Bemerkungen Uber Die Grundlagen Der Mathematik].

Paul Ring:

As we know that book is very important thing to add our expertise for everything. By a reserve we can know everything we really wish for. A book is a list of written, printed, illustrated or blank sheet. Every year had been exactly added. This publication Remarks on the Foundation of Mathematics [Bemerkungen Uber Die Grundlagen Der Mathematik] was filled regarding science. Spend your spare time to add your knowledge about your science competence. Some people has distinct feel when they reading some sort of book. If you know how big benefit of a book, you can really feel enjoy to read a e-book. In the modern era like today, many ways to get book that you just wanted.

Christopher Walker:

Many people said that they feel bored when they reading a e-book. They are directly felt that when they get a half areas of the book. You can choose the actual book Remarks on the Foundation of Mathematics [Bemerkungen Uber Die Grundlagen Der Mathematik] to make your current reading is interesting. Your own skill of reading skill is developing when you just like reading. Try to choose easy book to make you enjoy to read it and mingle the feeling about book and reading especially. It is to be initial opinion for you to like to open up a book and read it. Beside that the e-book Remarks on the Foundation of Mathematics [Bemerkungen Uber Die Grundlagen Der Mathematik] can to be your new friend when you're feel alone and confuse in doing what must you're doing of these time.
