“I'm fresh out of moving out on my own for the first time, and I quickly found out I needed to buy my own insurance. My head was spinning with all the different offerings out there, and I didn't want to get something I didn't need. Thanks to this book, I was able to sort out exactly what coverage I needed.” – Dan S. (Bedford, USA)

“This book should have come out years ago! It would have made my experience with buying insurance a lot easier. On the plus side, thanks to this book, I ended up being able to save money after I figured out that I was paying for coverage I didn’t need.” Sue N. (Batesville, USA)

“Great book. As an insurance agent myself, I can tell you that this book covers all its bases in laying out the different policies and how they work. I also appreciated that the author took the time to explain the underlying principles of the contract between the insurers and the insured. So often, that seems to fall through the cracks, and understanding that is vital to having a beneficial insurance relationship for everyone involved. I recommend this book especially to anyone who is about to purchase their own insurance for the first time” – Gretchen P. (Knoxville, USA)
