Excerpt from A History of the Irish Poor Law: In Connexion With the Condition of the People

The Irish Poor Law was in its origin no more than a branch or offshoot of the English law, but it is a measure of so much importance, and has so close a bearing upon the social well-being of the Irish people, that it seems to be entitled to a separate consideration. The severe trials moreover to which the law has been exposed, and the changes that have been made in its organization and executive, have given to it a new and distinctive character, on which account also a separate description of its progress and the incidents connected with it appears to be necessary. Hence therefore the intention which I at first entertained of combining the history of the Irish Poor Law with that of its English parent has been abandoned, and it is now published as a separate and independent work.

Notwithstanding the separate publication of the histories however, it must always be remembered that the English and the Irish laws are similar in principle, and identical in their objects. The end sought to be attained by each is, to relieve the community from the demoralization as well as from the danger consequent on the prevalence of extensive and unmitigated destitution, and to do this in such a way as shall have the least possible tendency to create the evil which it is sought to guard against.
