Jack H. Stocker

Chemistry and Science Fiction (American Chemical Society Publication) Jack H. Stocker

This lively collection looks at science as filtered through literature, film, and television. It discusses classic works in science fiction and provides an in-depth look at the chemistry depicted in popular culture, particularly in *Star Trek*, *Star Wars*, and *Doctor Who*. It includes an examination by Nebula Award winner Connie Willis of how science fiction authors use science, and reprints two tongue-in-cheek short stories by Isaac Asimov. The book also includes suggestions for using science fiction as an educational resource.
