The boys are back in town: A short history of male nude photography

While the female nude has long played a conspicuous role in western iconography, the male nude has not always enjoyed such attention, or acceptance. This **ode to the male physique** celebrates the evolving, at one time illicit, art form from an anonymous 19th century erotica through to contemporary work from **David Hockney** and **Duane Michaels**.

Through **the classic, the playful, and the provocative**, it explores the compositions, postures, and role-playing of this often under-explored genre. Esteemed masters such as **Herbert List**, **George Platt Lynes** or **Robert Mapplethorpe** are all there, alongside **Baron Wilhelm von Gloeden**, famed for his homoerotic images of **nude youths in classical postures in Sicily**. Further highlights include illustrations from *Physique Pictorial*, the leading organ of the mid-50s gay scene and a pioneer in gay publishing.
