Engineering in the Ancient World, Revised Edition

J. G. Landels

Engineering in the Ancient World, Revised Edition J. G. Landels

In his classic book, J. G. Landels describes the technological advances of the Greeks and Romans with erudition and enthusiasm. He provides an important introduction to engineering, writing about power and energy sources, water engineering, cranes, and transportation devices. From aqueducts to catapults, he attempts to envision machines as they may have worked in the ancient world. He then traces the path of knowledge taken by early thinkers—including Plato, Pliny, and Archimedes—in developing early theories of engineering and physics.

From reader reviews:

Mary West:

Book is usually written, printed, or outlined for everything. You can understand everything you want by a reserve. Book has a different type. As we know that book is important thing to bring us around the world. Beside that you can your reading ability was fluently. A reserve Engineering in the Ancient World, Revised Edition will make you to possibly be smarter. You can feel a lot more confidence if you can know about every thing. But some of you think that will open or reading a book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you in search of best book or appropriate book with you?

Paul Green:

As people who live in the actual modest era should be upgrade about what going on or facts even knowledge to make them keep up with the era that is certainly always change and make progress. Some of you maybe may update themselves by reading through books. It is a good choice for you personally but the problems coming to you is you don't know what one you should start with. This Engineering in the Ancient World, Revised Edition is our recommendation to make you keep up with the world. Why, since this book serves what you want and need in this era.

Robin Harvey:

Is it you actually who having spare time after that spend it whole day through watching television programs or just telling lies on the bed? Do you need something totally new? This Engineering in the Ancient World, Revised Edition can be the reply, oh how comes? The new book you know. You are so out of date, spending your free time by reading in this brand new era is common not a nerd activity. So what these ebooks have than the others?

Maria Forshee:

As a college student exactly feel bored to be able to reading. If their teacher inquired them to go to the library or to make summary for some e-book, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading really. Any students feel that reading is not important, boring along with can't see colorful pictures on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Engineering in the Ancient World, Revised Edition can make you truly feel more interested to read.
