Always remember , the right combination of foreplay and stimulation can make a woman worship a small penis just as readily as a large one.

There is nothing to worry about, While it's true that size can have its advantages, it's not really the length that matters — it's actually the width. Moreover, women don't particularly enjoy having their cervixes hit into, which often happens when a man is overly endowed. There is nothing sexy to painful intercourse, and that is exactly what many women complain of when a man's penis is too large than usual. If you follow some of our tips for having mind-blowing foreplay and combine them with the right kind of penetration, a small penis can give a woman even more pleasure than a guy who is well-endowed.
