Crayons and Computers: Computer Art Activities for Children Ages 4 to 8 Carol Sabbeth

With a computer paint or drawing program, a printer, crayons, and a little imagination, kids can explore the world of color and the endless design possibilities of a computer by crafting multi-media art. This four-color activity book combines this tool of today with an old favorite—the crayon. Kids will learn how to print out and paint a picture frame; use a mouse to create a Matisse masterpiece; create a kite of rainbow colors; and more while learning about primary, secondary, and complementary colors. *Crayons and Computers* includes ideas to extend crayon creations beyond the confines of paper and into cyberspace.
