"A classic of backpacking literature." *?Backpacker*

When *Backwood Ethics* was first published in 1979, the Watermans' "new ethic" was enthusiastically received by environmentalists, hikers, and wilderness managers. This expanded edition brings the basics of low-impact hiking, camping and cooking, and alpine management into the 21st century. Here the authors take a fresh look at ways to protect the physical environment of our mountains and backcountry.
