Basquiat: A Quick Killing in Art Phoebe Hoban

Painter Jean-Michel Basquiat was the Jimi Hendrix of the world: in less than a decade he went from being a teenage graffiti writer to an international art star; he was dead of a drug overdose at age twenty-seven. A legend in his own lifetime, Basquiat's meteoric success and overnight burnout were an instant art-world myth; his brief career spanned the giddy '80s art boom and epitomized its outrageous excess, from its art dealers to its drug dealers, from its clubs to its galleries, from Madonna to Warhol. And the legend endures: the 1980s art world *enfant terrible* became the subject of the 1996 film *Basquiat*, starring Jeffrey Wright, Dennis Hopper, and David Bowie. *Basquiat*, the first biography of this prolific and charismatic figure, charts his trajectory from his troubled childhood to his volatile passage through the white art world of dealers and nouveau riche collectors. It is also the evocation of an era--one that fueled Basquiat's hyperactive rise to stardom and sadly predictable death.
