Compliance requirements are here to stay.

Prepare your company for the growing challenge.

A Wall Street Journal/Harris poll revealed that two thirds of investors express doubts in the ability of corporate boards of directors to provide effective oversight. In the shadow of recent global scandals involving businesses such as Parmalat and WorldCom, *Manager's Guide to Compliance: Best Practices and Case Studies* is essential reading for you, whether your organization is a major corporation or a small business.

This timely handbook places U.S. and global regulatory information, as well as critical compliance guidance, in an easy-to-access format and helps you make sense of all the complex issues connected with fraud and compliance.

"Wide perspectives and best practices combined deliver a punch that will knock your 'SOX' off! The author has blended together a critical mix necessary for effectively handling the requirements of SOX."

—Rob Nance, Publisher, AccountingWEB, Inc.

"Robust compliance and corporate governance is an absolute necessity in today's business environment. This new book by Anthony Tarantino is an authoritative guide to understanding and implementing compliance and regulatory requirements in the United States and around the world. From SOX to COSO to ERM, this book covers them all."

—Martin T. Biegelman, Certified Fraud Examiner, Fellow and Regent Emeritus of the Association of Certified Fraud Examiners, and coauthor of *Executive Roadmap to Fraud Prevention and Internal Control: Creating a Culture of Compliance*

"If compliance wasn't difficult enough, now companies are faced with a barrage of technology vendors claiming to automate compliance as if it were a project. In his new book, Dr. Tarantino paints the reality of the situation: companies need to embrace the broader tenets of governance and use technology to embed governance policies and controls into their daily business processes. Only then can they gain business value from their compliance investments."

—Chris Capdevila, CEO and cofounder, LogicalApps
