A Photographic Atlas of Histology

Michael J. Leboffe

A Photographic Atlas of Histology Michael J. Leboffe

Designed for use in undergraduate histology and human anatomy courses, this atlas contains over 550 high-quality photomicrographs of human tissues and organs. The photomicrographs presented in this atlas were prepared from slides readily available from large biological supply companies to match as closely as possible what students will see in the laboratory. In addition to the photomicrographs, illustrations and diagrams are used throughout the atlas to clarify histological concepts.
