Ethics: The Big Questions (Philosophy: The Big Questions)

Ethics: The Big Questions (Philosophy: The Big Questions)

This anthology focuses on the central questions of ethics: What is the nature of morality? Why be moral? What are the requirements of morality? It draws together the best available classical and contemporary readings to make these questions come alive for today's students. Utilitarian, Kantian, and Aristotelian viewpoints are all well represented. Unique about the anthology is that it covers the three main challenges to ethics: form feminism, which shows how gender is relevant to morality: form environmentalism, which raises the question who is to count in morality: and form postmodernism, which emphasizes the importance of different perspectives in morality. These must be met if morality is to be justified and, surprisingly, this is the only ethics anthology on the market that presents all three challenges to students for their consideration..
